A few days before the Palena left Champerico an earthquake destroyed a small town near Guatemala City, but its name was not learned.

### AN OVATION.

Hon. R. W. Slack's Beautiful Tribute to our Soldier Dead.

Delivered at the Decoration Services at the Owensboro Cemetery, May the 30th.

Following a custom hallowed by time, we are here to-day "filled with sweet and precious memories," of our dead heroes, to encircle their immortal brows with garlands, and deck their graves with the loveliest flowers of spring, watered with tears of love and of sorrow.

It has been said that great names and great deeds never perish, and I believe no greater names have ever, or will ever, in all the future ages adorn the pages of history, than those of the great chieftains, upon both sides, in our civil war.

The Grand Army of the Republicthe child -the creature-of a war of principles, and not of conquest, accomplished more, in behalf of liberty and humanity, than had been accomplished by all the other armies of all the world from the beginning of time, and its heroic deeds will live forever in the memory of all future genera-

It is well for us, occasionally, in these later years, when the clouds of passion have been dispelled, to revert to the causes of a war, between brothers of the same country, and see if we cannot justify them both, giving each one his due meed of praise, and obliterate from memory's tablets, all recollecions of the unfortunate bitterness that once filled men's souls.

The conflict in which they engaged was inevitable. The people of the North and the people of the South, while composing one great nation, were drifting as far apart as the poles. The people of the South were wedded to a system which was theirs by inheritance, and the people of the North to others, which was theirs by inher-

Each system was diametrically opposed to the other. The people on both sides conscientiously believed as ment, to see the right in the justice of their cause, but a nation thus divided gainst itself could not live.

No civil court could decide, and thus settle, the momentous questions involved, and we were left, and dritted almost of our own volition, into, the court of last resort, from which there is no appeal, the arbitrament

Patriots and statesmen on both sides, seeing the autul consequence of the coming storm, and fearing the wreck and ruin that must follow in its wake, lifted up their voices to stay its coming. The sage of Ashland, who had retired to private life to spend his declining years, once more entered that great forum of the world, the senate of the United States, and standing in his place in a speech, which the historian tells us, "for power, pathos and patriotic sentiment, has seldou, it ever been excelled," he said.

"I implore gentleman, I abjure them whether for the South or the North by all they hold dear in this world-by all their love of libertyby all their veneration for their ancestors-by all their gratitude to Him who has bestowed on them such unnumbered and countles blessings-by all the duties which they own to themselves, to pause, solemnly to pause at the edge of the precipice, before the

lunchers. It takes three hours to digest a fresh egg soft boiled; three hours to digest a boiled apple dumpling; three hours to digest fresh roast beef. In fact, three hours is about the time required to digest the average twelve minute lunch. The object of the hasty lunch is to let the busy man get back to his office work. But when the brain is active, the stomach is inactive for lack of necessary blood. The natural consequence is indigestion, and indigestion opens the door to many diseases.

Indigestion is cured by the use of Dr. Pierce's Golden Medical Discovery, which cures diseases of the stomach and other organs of digestion and nutrition, and enables the perfect digestion and assimilation of food.

The old Federal generals. Shafter, Lawton aad Chaffee, and the old Confederate generals, Lee and Wheeler, in ommand of the sons of the old Confederate and Federal soldiers accompanied by the rough rider from the North, in command of a regiment composed of one half New York Yankees and the other half the Rough Riders of Texas, whose fathers wore the blue and the gray, marched up San Juan hill, in solid, unbroken columns, under the same old flag that our fathers carried with bare and bloody feet across the frezen ground at Valley Forge, to glorious victory in behalt of liberty, sweet liberty.

To-day you invite the old Confederate soldiers to join with you in paying honor and tribute to you dead comrades, his former toes. Keeping your hands clasped over the bloody chasm he invites you on the morrow to join him, in a neighboring city, to pay honor and tribute to his dead comrades, your former foes. Can it be possible that columbus, when he was begging in tatters and rags before the thrones of the kings of the world, tor a pittance to enable him to sight plant the cross in the wilderness of the unknown savage, had any conception of the thought that he was sowing the seeds of a government that will supplant the monarchies of the old world in which he had implicit faith and to which he gave loyal

Did our fathers, when they declared their independence of their mother country, and announced the doctrine that allimen are created equal, and that the only just power of government is derived from the consent of the governed-realize the possibility that they were thus proclaiming a doctrine that will permeat the whole world and obliberate the throne, once believed to be of divine origin?

A shopkeeper is this year calling the attention of customers and those he desires as such to his wares by a novel method. The explanation given in the pamphlet is that the sender is not a stealer of other people's time, and that is it was calculated that the recipient would use up five cents' worth of his own time in reading the shopkeepers' story, the latter had decided to be honest and pay for the time used or "purchased," as he puts it, and he therefore inclosed a nickle in pay-

# MALARIA Invisible

Means bad air, and whether it Enemy to Health comes from the low lands and marshes of the country, or the filthy sewers and drain pipes of the cities

marshes of the country, or the filthy sewers and drain pipes of the cities and towns, its effect upon the human system is the same.

These atmospheric poisons are breathed into the lungs and taken up by the blood, and the foundation of some long, debilitating illness is laid. Chills and fever, chronic dyspepsia, torpid and enlarged liver, kidney troubles, jaundice and biliousness are frequently due to that invisible foe, Malaria. Noxious gases and unhealthy matter collect in the system because the liver and kidneys fail to act, and are poured into the blood current until it becomes so polluted and sluggish that the poisons literally break through the skin, and carbuncles, boils, abscesses, ulcers and various eruptions of an indelent character appear, depleting the system, and threatening life itself.

the skin, and carbuncles, boils, abscesses, ulcers and various eluptions of an indolent character appear, depleting the system, and threatening life itself.

The germs and poisons that so oppress and weaken the body and destroy the life-giving properties of the blood, rendering it thin and watery, must be overcome and carried out of the system before the patient can hope to get rid of Malaria and its effects.

S. S. S. does this and quickly produces an entire change in the blood, reaching every organ and stimulating them to vigorous, healthy action. S. S. S. possesses not only purifying but tonic properties, and the general health improves, and the appetite increases almost from the first dose. There is no Mercury, Potash, Arsenic or other mineral in S. S. S. It is strictly and entirely a vegetable remedy.

Write us about your case, and our physicians will gladly help you by
their advice to regain your health. Book on blood and skin diseases sent THE SWIFT SPECIFIC CO., Atlanta, Ga.

Stahl, Secretary of the Na-'sperience, honey, drivin' 'cross dem tional Farmer's Congress, and every evening a great pyrotechnic display will be given by LaRose's electric fountain, two feet larger than the one shown at the World's Fair.

Remember that the Henderson Route, the most popular passenger Still warm. It was an exciting scene. No one was near except a few prison officials in charge of a hundred desperate felons, and I felt the exciting sense of a sentinel on a lonely outpost as the six bloodhounds bounded through tangled forest, baying madly at every leap. Eager was my desire to see the finish. It came soon. The negro's force was spent, and he took to a tree in his effort to save himself from the baying dogs. I could not help thinking of the scene I could not help thinking of the scene when a possum is treed, but I doubt tormation as to camping and living whether the simile occurred to the prigileges, and the complete program.
